

## Visit to Habitat Study & Fish Collection

Department of Zoology went for a habitat study and Fish collection on 10<sup>th</sup> November 2022. 15 Students studied the habitat of Tons, Yamuna and Asan River. Fishes caught from these rivers were kept in aquariums present in the department. Prior to going for the collection, the aquariums were prepared and the parameters were maintained. Drag nets and scoop nets were used for catching the fishes. Two fishermen Mr. Nitish and Mr. Sanjay assisted the students in catching the fishes. Species of fishes that were caught were *Puntitus ticto*, *Channa*, *Barilius*, *Mastacembalus*, *Garra*, *Mystus*. Shrimps and snails were also collected. Besides collecting the fishes, students also cleaned the river side by collecting the plastic waste.
